Rapid Communication System

What ChurchCast Can Do For You:

ChurchCast - Highly Advanced Communication Tool for Churches

Reach all your members within moments

ChurchCast is a powerful communication tool that enables you to **reach literally hundreds of members within moments** via multiple communication methods: voice messages, email (include documents, sound files and more), text messages, including survey tools.

ChurchCast provides the **most advanced communication tool for churches** to keep in touch with their members in a timely and cost-efficient manner. This affordable tool can be used for many things including, notices about cancelled services, urgent prayer requests, special services, groups reminders (specific ministries, board meetings, choir practice), fundraising, surveying your congregation and much more.

ChurchCast gives you the ability to **send unlimited messages, have unlimited contacts and create unlimited number of groups.**

ChurchCast supports all major means of communication common today: cell or land line voice calls, email, and PDAs/Blackberries.

ChurchCast makes it easy for everyone to be able to receive alerts and notifications at home, at work, in their cars, on campus – anywhere! **Increase member awareness and participation.**

ChurchCast is a “remotely-hosted” web-based application and requires **NO hardware or software** to be loaded by you or your staff members – it operates through the Internet via any computer (Windows or Mac) with a standard web-browser (Internet Explorer, Netscape, Firefox, etc.). ChurchCast may **also be accessed and used via standard or cellular telephones from anywhere in the world** that access a U.S. toll-free phone number.

ChurchCast provides trusted reliability and **free customer service support 24/7 365 days a year.**

ChurchCast’s data and communication servers are located in multiple regions of the U.S. and are therefore not subject to regional or local weather events, blackouts, or other man-made or natural disasters. Additionally, all of ChurchCast’s service providers are top-tier companies in their respective areas providing complete data mirroring and functional redundancy, “100% up-time”, and performance speeds enabling calls to your entire membership list within a matter of minutes – even less for text messages!
