

Messaging + Connectivity Instantly

In the event of an emergency situation, how long would it take to contact every store in the mall? With **MallCast**, you won't have to worry about communication challenges, because **MallCast** makes reaching every store simple and almost instantaneous.

With **MallCast** you can send a message to every store or just a select handful from your phone or internet-connected computer. Recipients receive the message via cell phone, store phone, fax, email or text message. It makes staying in touch secure and reliable.

You can also offer **MallCast** features to your store managers as an added sales perk. They can easily distribute sales announcements to their list of clients within moments, without having to utilize hours making phone calls.

Message Distribution via:

- Cell Phone
- Store Phone
- Text Message
- Email or Fax

- Completely web-based, no software to install

- Send messages now or schedule them for a later date

- Free setup and training along with on-going support and hosting

The benefits of **MallCast** are limitless and the advantages, unbeatable, so give **MallCast** a try for yourself with our **FREE DEMO**. Log on to www.highgroundssolutions.com/demo.html to register today.
